

THE FUTURE OF CLEANING IS HERE!!

— ICE MACHINES —

NO ICE MACHINE CLEANING | NO ICE MACHINE FILTERS

SIX OUT OF TEN RESTAURANTS HAVE MORE BACTERIA IN ICE THAN IN TOILETS!!

O-Z Tech Water
Oxygen Powered Solutions

WILL SAVE YOU 100% IN ICE MACHINE CLEANING AND FILTERS!

- Helps Establish a Pro-Active Ice Machine Safety Program
- Prevents Slime Build Up (Bio Film) in the Cool Environment of your Ice Machine
- Prevents Bacteria & Mold Growth
- Keeps Patrons or Guests Safe from Harmful Bacteria Responsible for Many Respiratory and Gastrointestinal Illnesses
- Helps Prevent Low Water Flow to the Ice Machine by Keeping the Water Filter Open and Clear of Mold and Residue Build Up

- Prevents Ice Cubes from Containing Listeria, Salmonella, E Coli, Norwalk Virus and Shigella
- Helps Keep Tea & Coffee Machines from Build-Up & Bacteria

**RESTAURANTS | SCHOOLS | UNIVERSITIES | HOTEL/MOTELS
C-STORES | LONG TERM & SHORT TERM CARE FACILITIES**

ICE ICE ICE...NOT ALWAYS CLEAN & NICE

- A study was performed at the University of Texas found ice cubes can still contain Salmonella, E. Coli, and Shigella even when mixed with hard liquor, soda, and water. [www.newair.com/articles/dirty-ice-makers-will-get-you-sick/]
- 5,000 people became ill because the ice they had in their drinks was contaminated. The ice maker had not been cleaned properly or often enough, causing those thousands of people to become sick. [www.newair.com/articles/dirty-ice-makers-will-get-you-sick/]
- A local news affiliate in the Indianapolis, Indiana found coliform bacteria in 13 out of 25 ice samples taken from area bars. [www.grubstreet.com/2013/06/ice-machines-bacteria-toilet-water.html]
- Out of 49 restaurants and hotel bars in Chicago, nearly 20 percent were found by The Chicago Sun Times to have contaminated ice. [www.huffingtonpost.com/2014/06/16/ice-cubes-gross_n_5475301.html]
- Researchers from Hollins University in Virginia took samples of 90 drinks from 30 different soda fountains located within a twenty-mile radius of Roanoke. They found coliform bacteria in 48 percent of the drinks and antibiotic-resistant E. Coli in 11 percent. [www.grubstreet.com/2013/06/ice-machines-bacteria-toilet-water.html]

The system is mounted close to your ice machine and delivers ozonated water capable of maintaining a clean bacteria free ice machine, as well as producing pure, clear, quality ice.
